DECLASSIFIED
Authority NND 735017S E C R E TSECTION II1 April 1945 - 30 April 1945:

At the beginning of the period Combat Team 318 was committed to capture the Communications Center of Kassel. In the attack on Kassel on 2 April 1945 thirteen (13) enemy tanks succeeded in penetrating the forward Infantry elements leaving nothing but the Artillery to stop them. By use of Air Observation Posts and a series of ground Observation Posts we were able to successfully take the enemy tanks under fire and stop their attack, destroying eight tanks. Kassel was defended by a garrison composed of S.S., Air Corps, and Volkstrum troops recently recruited from the immediate area. This was a positive indication of the extent of disorganization of the enemy forces in this area. Kassel was cleared of enemy forces on 5 April 1945.

After completion of our operations in vicinity of Kassel Combat Team 318 moved to vicinity of Gotha 7 April 1945 with 314th Field Artillery Battalion still in direct support.

From 8 April 1945 to 13 April 1945 the Battalion continued in direct support of the 318th Infantry - the mission being the capture of Erfurt. Numerous strong points were encountered in the small towns guarding the approaches to the city. Notable among these was Schmira (WS 2766) where heavy fighting occurred. After the liquidation of these strong points Erfurt itself was defended by house to house fighting of Air Corps, police, S.S. and Volkstrum remnants.

From 13 April 1945 to 16 April 1945 Combat Team 318 mopped up behind the Fourth Armored Division. Enemy resistance consisted of undefended road blocks, blown bridges, and mines. On 16 April 1945, 314th Field Artillery Battalion went into position in the vicinity of Hartmansdorf (WK 5866). Combat Team 318 relieved the Fourth Armored and prepared to attack the city of Chemnitz.

On 17 April 1945 our mission was changed and Combat Team 318 moved south to an assembly area northeast of Meedensdorf (WO 3253).

On the 21 April 1945 the Battalion moved to Nurnberg (WO 4403) and were placed in Corps reserve. Remained in Nurnberg from 22 April 1945 to 28 April 1945 performing maintenance, conducting schools and general rehabilitation of personnel.

On 28 April 1945 Combat Team 318 moved to assembly area vicinity Grass (WU 1752). 29 April 1945 Combat Team 318 mopped up behind Thirteenth Armored Division. Enemy offered no resistance. 30 April 1945 314th Field Artillery Battalion went into position at Lengthal (WU 4619) to support 318th Infantry's crossing of the Isar river. The Infantry encountered light resistance consisting of small arms and automatic weapons. Sporadic mortar and artillery fire was received on the bridge head.
