REPORT OF EVENTS

1st platoon constructed 20 ton bridge at Guinglange last night under most unfavorable conditions of rain and a very black night. 2 squads worked on the construction and returned to bivouac at 0300.

2nd platoon constructing bridge east of Guinglange. 3rd platoon working on road from Arriance to Hamilly, filling craters blown by mortar and checking for mines. The continual rain for the past few days has made working conditions very difficult.

The town of Guinglange is full of booby traps and mines. 1st platoon has been working clearing town. This is the heaviest concentration of booby traps in one place that the company has encountered so far.
