1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets. The second step is to analyze the data. The third step is to develop a plan. The fourth step is to implement the plan. The fifth step is to evaluate the results.

[Faint, illegible handwritten notes at the bottom of the page]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
